

# Use scenario

## Worksheet

### Activity:

Use scenarios are like a tiny one-act plays, subdivided into one-paragraph micro scenes, or interaction points, that describe how users currently perform one or more tasks.

Re-read your interviews, write a story that involves all three personas and extreme characters as they perform a complex task with maps on a

phone. Choose a realistic setting, date and time, choose the context, and tell the story as a series of events that occur over a period of time. Be sure to include events that suggest the need for a new design. *Careful!* Do not confuse this with a design scenario. Avoid designing a solution; instead describe what these users do today.

Use scenario						
Group	6		Project		Date	
Setting	An outdoor sport session on the fields					
Persona 1	John	Persona 2	Ashley	Extreme Character	Tom	
Event	John checks if there are available bikes next to him, he doesn't want to take public transportation.					
Event	Ashley is far from the fields, she sees on the map her itinerary to reach her destination. She has to take the bus.					
Event	Tom has a bicycle, he opens his app and follows the path that leads to the field.					
Event	Ashley arrived at destination first, she starts warming-up while waiting for her two friends to arrive.					
Event	John arrives next. John and Ashley are wondering where is Tom, they called him.					
Event	Tom has encountered an issue, the app took him to a private property, there was even a dog running after him. He had to make a detour.					
Event	They finally meet together to do their sport session.					
Event
